

# WEGRAM WHITEPAPER

**Updated Version – 2025**

## Executive Summary

Wegram is a next-generation Web3 ecosystem that combines social interaction, livestreaming, NFTs, partnerships, rewards, and gaming in one platform. Built for traders, Web2 users, and global communities, Wegram enables seamless connection and engagement while giving back to its users. Rewards are earned through simple tasks, platform activity, and Wegram Games, creating real value for participation. With an integrated NFT marketplace for digital ownership and livestreaming features to enhance community interaction, Wegram forms a dynamic hub where culture and crypto meet. Launched transparently on Pumpfun, Wegram is positioned for sustainable growth, adoption, and long-term trust — with more utilities coming soon.

## Vision & Mission

**Vision:** To be the global hub where Web2 and Web3 users connect, play, and earn.

**Mission:**

- Build a seamless platform for traders, gamers, and communities.
- Reward participation through tasks, activities, and gameplay.
- Integrate NFTs for ownership, culture, and creativity.
- Expand globally through partnerships and campaigns.
- Sustain community-first growth with fair tokenomics.

## Problem & Solution

**Problems:**

- Web2 platforms exploit user data without fair rewards.
- Existing Web3 platforms are fragmented, complex, and focused only on degens.

**Wegram's Solution:**

- Rewards for all participants — traders, gamers, and creators.
- Simple onboarding for Web2 users.
- Unified platform with social, NFT, and gaming utilities.
- A community-driven ecosystem with 100% transparent launch.

## Key Features

1. Social interaction & Livestreaming
2. NFT Marketplace for ownership & trading
3. Wegram Games – earn by playing and engaging
4. Partnerships & Campaigns to expand reach
5. Task & Reward System to give back to users
6. Seamless Web2 → Web3 onboarding

*(Removed: staking, farming, OTC desk, DAO governance, etc.)*

## Tokenomics – \$WGM

- **Total Supply:** 1,000,000,000 \$WGM
- **Allocation:** 100% Community

Launched transparently on Pumpfun, with no staking, farming, or governance allocations — ensuring a fair, community-first token model.

## Roadmap

Phase 1 – Foundation & Launch	<ul style="list-style-type: none"> <li>• Launch Twitter &amp; Telegram</li> <li>• Release V1 of website</li> <li>• Begin App MVP</li> <li>• First game prototype</li> <li>• Launch on Pumpfun</li> <li>• Early contests &amp; campaigns</li> </ul>
Phase 2 – Growth & Expansion	<ul style="list-style-type: none"> <li>• Run campaigns</li> <li>• Push for trending &amp; boosts</li> <li>• Marketing initiatives</li> <li>• Coingecko listing</li> <li>• CoinMarketCap listing</li> <li>• V2 website release</li> <li>• Ambassador onboarding</li> </ul>
Phase 3 – Scaling & Sustainability	<ul style="list-style-type: none"> <li>• Intensive marketing</li> <li>• Global campaigns &amp; partnerships</li> <li>• Expand apps &amp; games</li> <li>• Community engagement</li> <li>• Long-term growth &amp; ecosystem building</li> </ul>

## Conclusion

Wegram is more than just a Web3 app — it's a cultural hub where crypto, gaming, and community meet. By focusing on engagement, NFTs, rewards, and livestreaming, and removing outdated models like staking or DAO governance, Wegram ensures transparency, fairness, and scalability. With its roadmap and community-driven approach, Wegram is positioned to become a leading force in the next wave of Web3 adoption.
